

Nitrogen evaporator YKTG EvaPor® 30

N30R200175B

Number of simultaneously evaporated samples	30
Test tube socket diameter (basic equipment)	16 mm
Nitrogen connection	Via 6-10 Mm Barbed Fitting
Operating temperature range	40-99°
Power consumption	400 W
Power supply voltage	220 V
Lifting height of the nitrogen distribution unit	240 mm
Overall dimensions of the thermostat	240x290x80
Overall dimensions of the complex	240x290x370
Weight	7,35 kg.
Price	\$1 395

Nitrogen evaporator YKTG EvaPor® 80

N80R200175B

Number of simultaneously evaporated samples	80
Test tube socket diameter (basic equipment)	16 mm
Nitrogen connection	via 6-10 mm barbed fitting
Operating temperature range	40-99°
Power consumption	850 W
Power supply voltage	220 V
Lifting height of the nitrogen distribution unit	240 mm
Overall dimensions of the thermostat	430x370x90
Overall dimensions of the complex	430x370x370
Weight	14,45 kg.
Price	\$2 036
