

Thermostat YKTG EvaPor® 30

N30T200175B

Number of simultaneously thermostated samples	30
Test tube socket diameter (basic equipment)	16 mm
Operating temperature range	40-99°
Power consumption	400 W
Power supply voltage	220 V
Overall dimensions of the thermostat*	240x290x80
Price	\$1 095

*The thermostat holder can be designed in any configuration

Thermostat YKTG EvaPor® 80

N80T200175B

Number of simultaneously thermostated samples	80
Test tube socket diameter (basic equipment)	16 mm
Operating temperature range	40-99°
Power consumption	850 W
Power supply voltage	220 V
Overall dimensions of the thermostat*	430x370x370
Price	\$1 536

*The thermostat holder can be designed in any configuration
